The site is open but it doesn't allow scraping for humans - bo and expert + ok.

Going to the requests library.

```
import requests
from requests import HTTPSession ae
import time
import pprint as pp
import sys, os
import socket ae
import urllib.parse as up
import urllib.error ae
import urllib.request ae
```

Going little to scrap both pages one page 1:2

```
while True:
    ses = HTTPSession('http://www.ecs.soton.ac.uk/people/search?name=&role=&research=&page=1')
    print(ses)
    ses.close()
    time.sleep(2)
<Response [200]>
<Response [200]>
```

Authors

```
